## OPENING MONTAGE

For the opening montage, we recommend as many "growing up" photos as you can find, from baby to graduation for both the bride & groom. We also like to have photos of the couple including the engagement party. Any family videos are also welcome. In some cases, we will add the honeymoon pictures in post-production.

**IMPORTANT:** Depending on time of year and amount of editing required, we cannot guarantee the completion date of your video. Average is 3 to 6 months.
